

## Triplex Plunger Pump K 13000 – 3G

P 25-1

01.10.2015

The K 13000 high-pressure pump fulfills a wide range of applications such as hydraulic, seawater, glycol, methanol, oils and jetting. At 130 kW, this model features a gearbox with forced lubrication and may be optionally equipped with an oil cooler for continuous operation. Pump constructed in the classic KAMAT modular component system to facilitate simplified adaptation to different operating requirements. The rugged design utilizes relatively few component parts, the pump is very rugged and this applies particularly for 24/7 operation.

- Flow rate based upon 100% volumetric efficiency and 20°C ambient temperature
- min. inlet pressure depending on fluid medium
- Speed range 10-100% depending on rod force
- Gear dynamically balanced
- Gear with force-fed lubrication (> 110 kW with oil cooler)
- Standard gear ratios  
 $i = 3,00 - 3,14 - 3,39 - 3,76 - 4,13 - 4,50 - 4,93$
- API 674 and ATEX versions available
